liligo for Android, now with hotels

Following the success of their free apps for iPhone and Android, liligo.com has now launched a new version of its Android application that allows users to instantly compare hotels around the world, on top of flight tickets.

The new feature: hotel comparison

In addition to a new application design, liligo.com's flight search technology is now available to compare hotel offers. The new liligo for Android application allows users to find hotels easily and quickly from among more than 300, 000 establishments in 500 cities in the UK and abroad.

Function details:

- Search for hotel stays among more than 300, 000 establishments around the world
- Filter results any way you like: accommodation type, star-rating, amenities and services, etc.
- Sort results according to different criteria: price, distance from city centre, etc.
- View hotel results on a map
- Check out hotel photos, read guest reviews, see hotel location on a map, etc.
- Compare prices by supplier

Compare flights as usual

liligo.com for Android, as in its previous versions, still allows users to search for flights instantly from hundreds of travel sites (travel agencies, airlines, train companies, tour operators, etc.), not forgetting the low cost ones (70 airlines). Download the latest version from Google Play here: liligo for Android.

More new functions are on the way soon to help you plan your trips even better.

About liligo.com

liligo.com is the first travel search engine to integrate more than 250 sites (travel agencies, airline companies including 70 low cost, tour operators, hotels…) and allows travellers to access all available on-line travel solutions, sorted and presented objectively. Comprehensive, exhaustive, innovative, objective, liligo.com is dedicated to helping the user find their holidays and trips as simply as possible. Available in 10 counties and attracting more than 2 million unique visitors a month, liligo.com is a product of Findworks Technologies, a forty person start-up founded by Pierre Bonelli, Bertrand de la Ruelle, Xavier Corbel and Mikaël Quilfen in 2005.
